**Submission Requirements**

- Five (5) samples of each product shall be submitted for testing. The State Fire Marshal, however, reserves the right to request additional samples up to a maximum of ten (10), if needed, to determine whether the product conforms to the standards set forth in Section 791.01, Florida Statutes.
- Attach chemical composition laboratory report issued in compliance with the CFR 49, Parts 100-177, 1992 Edition. (All product identifying information utilized on the laboratory report must coincide with labeling of product submitted for testing)
- Attach a letter of approval issued by the United States Department of Transportation with the identifying "Ex" number for each product. (All product identifying information utilized in "EX" documentation must coincide with the labeling of the product submitted for testing)

Section 4A-50.015, provides that a shipping container of sample products shall be returned to the sender post-collect or freight collect and will not be tested for approval if any of the following occur:

- (a) The Form DI4-362 "Request for Sparkler Analysis" is not accurately completed for each sample product submitted in a shipping container.
- (b) A chemical composition laboratory report issued in compliance with CFR 49, Parts 100-177, 1992 Edition, and a letter of approval issued by the United States Department of Transportation with an identifying "Ex" number does not accompany the Form DI4-362 for each sample product in the shipping container.
- (c) Any submissions for which mailing or freight or any other shipping charges are due.
- (d) Any submissions shipped to its office in Tallahassee or any division office other than the laboratory in Havana.
- (e) Any samples received after the September 1 deadline.

The division shall dispose of any samples, which remain after testing. Any person wishing to have untested samples returned shall make arrangements with the laboratory in Havana. The division will not pay for samples to be returned.

The products submitted must be identified on the reverse side of this form, providing all requested information as well as all documentation required above.
