ASBESTOS NOTIFICATION STATEMENT

FBC 105.9 Asbestos: The enforcing agency shall require each building permit for the demolition or renovation of an existing structure to contain an asbestos notification statement which indicates the owner's or operator's responsibility to comply with the provisions of s. 469.003 Florida Statutes and to notify the Department of Environmental Protection of her or his intentions to remove asbestos, when applicable, in accordance with state and federal law.

_____ (Initial) The owner or operator has been notified of their responsibility to comply with the provisions of 469.003, *Florida Statutes*, and to notify the Department of Environmental Protection of his or her intentions to remove asbestos, when applicable, with state and Florida law

F.S.S. 469.003 License required.

(1) No person may conduct an asbestos survey, develop an operation and maintenance plan, or monitor and evaluate asbestos abatement trained and licensed as an asbestos consultant as required by this chapter.

(2) (a) No person may prepare asbestos abatement specifications unless trained and licensed as an asbestos consultant as required by this chapter.

(b) Any person engaged in the business of asbestos surveys prior to October 1, 1987, who has been certified by the Department of Labor and Employment Security as a certified asbestos surveyor, and who has complied with the training requirements of x. 469.013(1)(b), may provide survey services as described in s. 255.553(1), (2), and (3). The Department of Labor and Employment Security may, by rule, establish violations, disciplinary procedures, and penalties for certified asbestos surveyors.

(3) No person may conduct asbestos abatement work unless licensed by the department under this chapter as an asbestos contractor, except as otherwise provided in this chapter.

Lead Contamination:

As of April 22, 2010, federal law requires that contractors performing renovation, repair and painting projects that disturb more than six square feet of paint in homes, childcare facilities, and schools built before 1978 must be certified and trained to follow specific work practices to prevent lead contamination.
